

# CORONAVIRUS (COVID-19)

## ABOUT THE VIRUS

### Coronavirus disease 2019 (COVID-19)

The virus causes a mild to severe respiratory illness. How the virus spreads isn't yet fully known. It's likely spread through:

## SYMPTOMS

2 days

Incubation time period

## PREVENTION

Wash your hands or use an alcohol based hand sanitizer often.

Avoid touching your eyes, nose and mouth.

Do NOT have contact with people who are sick.

Clean surfaces often with disinfectant.

## WHO IS AT RISK?

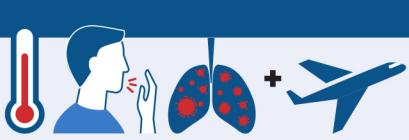

If you have been to a location where people have been sick with COVID-19, you are at risk.

Call your health care provider if:

You have been in close contact with a person known to have COVID-19 and you have a fever, cough or difficulty breathing.

You have these symptoms and you live in or have recently traveled from an area with ongoing spread of COVID-19.
